PROFESSIONAL SUMMARY

Frontend Developer in training with freelance experience building interactive web interfaces using JavaScript, HTML5, CSS3 and Bootstrap, with working knowledge of React and Angular. Complemented by 6+ years managing high-volume operations under pressure, bringing attention to detail and problem-solving skills honed in demanding, real-world settings. Looking to bring this combination of user-experience sensibility and operational discipline to a professional team.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Freelance / Independent Projects

Remote | 08/2025 – Present

- Built interactive interfaces in JavaScript, HTML5 and CSS3, achieving a 30% reduction in load time and improved UX, integrating DOM manipulation, reusable components and responsive design with Bootstrap.
- Took part in developing 3 end-to-end web applications, connecting front-end interfaces to backend services built in Node.js with SQL persistence.
- Deployed all 3 web applications to production cloud environments, managing version control with Git and GitHub throughout the full project lifecycle.

Logistics and Taxi Driver — Taxisol / Logistransol

Marbella | 01/2016 – Present

- Increased completed services per shift by 20% by optimising routes using real-time traffic analysis.
- Achieved a 98% on-time delivery rate for goods and passenger transport, resolving on-road incidents through quick decision-making.
- Safely operated vehicles up to 3,500 kg (motorbikes, taxis, lorries) with zero incidents, complying with road safety regulations.

Vehicle Mechanic — Taller Urbano / Norauto

Marbella | 04/2019 – 2025

- Reduced turnaround times by 15% by carrying out preventive and corrective maintenance on brakes, suspension and engine systems.
- Maintained a warranty return rate close to 0%, ensuring strict compliance with Health and Safety regulations (PPE).
- Managed inventory of filters, oils and tyres, ensuring continuous availability of critical spare parts.

Chef and Customer Service — Pad Thai Wok / Amore & Fantasia

Marbella | 02/2015 – 02/2022

- Reduced waiting times during peak hours by strategically reorganising kitchen workflows.
- Prevented stock shortages and optimised costs by managing inventory of perishable goods.
- Maintained 100% compliance with food hygiene and safety protocols throughout the role.

EDUCATION

- Higher National Diploma (FP Grado Superior) — Multiplatform Application Development (DAM) — IES Aguadulce | Currently studying
- Full Stack Web Development + AI Development — Conquer Blocks & Aula DigitalTech | 2025 – Present
- Data Analytics (Skills Build) — IBM | 2025 – Present
- Professional Certificate — Mechanic — Marbella | 06/2018 – 05/2019
- A-Levels (Bachillerato) — Sciences — IES Rio Verde, Marbella | 2013 – 2015
- Compulsory Secondary Education (ESO) — IES Pablo del Saz, Marbella | 2007 – 2013
